

 THRA_nuclearreceptor_1

A sequence logo for the THRA_nuclearreceptor_1 binding site. The sequence is 14 nucleotides long: T G A C C T T A T G A G G T C A. The nucleotides are color-coded: T (red), G (yellow), A (green), C (blue). The logo shows the relative frequency of each nucleotide at each position, with vertical bars indicating the information content. The sequence is flanked by black vertical bars at positions 1 and 14.

 THRB_nuclearreceptor_1

A sequence logo for the THRB_nuclearreceptor_1 binding site. The sequence is 14 nucleotides long: T G A C C T T A T G A G G T C A. The nucleotides are color-coded: T (red), G (yellow), A (green), C (blue). The logo shows the relative frequency of each nucleotide at each position, with vertical bars indicating the information content. The sequence is flanked by black vertical bars at positions 1 and 14.
